

General FAQ

Title: AutoGrip Tires – General Frequently Asked Questions

Content:

1. **Q:** What types of tires does AutoGrip manufacture?
A: We produce tires for passenger cars, SUVs, light trucks, and commercial vehicles.
2. **Q:** Are AutoGrip tires available for sale directly to consumers?
A: Yes. We sell our tires both online for direct-to-consumer purchases and through authorized retail partners.
3. **Q:** What is the usual lifespan of an AutoGrip car tire?
A: Under normal driving conditions, most of our passenger car tires last between 40,000 to 60,000 miles. Actual mileage may vary depending on maintenance and driving habits.
4. **Q:** Does AutoGrip provide roadside assistance?
A: We do not offer direct roadside assistance. However, our tires come with recommended roadside service provider information for your region.
5. **Q:** Do you offer any eco-friendly or low rolling resistance tires?
A: Yes. We have an EcoLine series designed for improved fuel efficiency, made from a high-silica tread compound that reduces rolling resistance.
