

## **Service & Installation Policies**

**Title:** AutoGrip Tires – Service Guidelines and Installation Procedures

**Content:**

- **Authorized Installers**
  - We recommend using our network of authorized installers for mounting, balancing, and alignment.
  - Installation costs vary by location and tire size.
- **Mounting Guidelines**
  - Always follow the specified load index and speed rating for your vehicle.
  - Improper mounting or inflation can void your warranty.
- **Maintenance & Rotation**
  - Tires should be rotated **every 6,000 to 8,000 miles** to maximize tread life.
  - Check inflation pressure monthly and maintain levels recommended by the vehicle manufacturer.
- **Safety Inspections**
  - Regular tread checks are advised. Replace tires when tread depth is at or below 2/32 inches (1.6 mm).
  - Inspect tires for bulges, cuts, or irregular wear patterns.
- **Support**
  - For questions about installation or service, contact our dedicated hotline at 1-800-AUTOGRIP (fictional) or email **service@autogriptires.com**.
